WORDS: KATE RACOVOLIS

As lauded furniture designer Guillaume Alan lands in Mayfair, along with Ralph Lauren Home's new lighting collection, we see no reason to leave our living rooms this month

The master of minimalism

French designer Guillaume Alan's beautiful monochrome and distinctly minimalist collections have made the journey from Paris to Mayfair with the opening of his first store in the UK. Alan's signature style marries 18th century collections with a 21st century look, expressing the modernity of Paris as we know it today. The ultra-fashionable Alan has had many pieces from his prestigious collections immortalised in photo shoots for Chanel, Yves Saint Laurent, Tom Ford, Balenciaga and Dior, including The Valmont couch, The Angelique, The Spa Bed daybed and his Stella chairs.
