Interior Designer Profile...

GUILLAUME ALAN

Guillaume Alan has three main prongs to his work; architectural concept, interior design and furniture design. He manages to seamlessly interlink all of these aspects in his work, creating serene and harmonic atmospheres. His style can be described as luxurious, serene and poetic, all evident in the pictured project. A two-storey apartment in Paris with a 360-degree view of the city, Guillaume has created a peaceful haven amidst the city buzz. Based in Paris and in London, with an already impressive portfolio, we very much look forward to seeing the upcoming projects of this very talented designer. Photography: Matthew Donaldson.
